Forms Builder For SharePoint

We are pleased to announce that a new version (1.6.11.17) of **SPARK** Forms Builder for SharePoint Foundation/Server 2013 and SharePoint Server 2016 on premise has been released, which contains many improvements and hotfixes such as:

1. Auto populating lists and libraries columns
2. Electronic signature control.
3. Barcode control.
4. Form Variables.
5. Major enhancements on the rule manager.
6. New functions to get data from lists/libraries and user profile service, and populate these data instantly on the forms controls with only one rule code.
7. Performance enhancements.
8. Enhancements on controls and controls mapping.

And much more ...
